

We are excited to announce a new addition to the Coastal Communities Conference

A sneak preview of the movie
OCEAN FRONTIERS:
The Dawn of a New Era in Ocean Stewardship

This groundbreaking film takes a balanced, bi-partisan approach to the problems we face in managing our oceans and the solutions at hand. You'll see unlikely allies—industrial shippers, pig farmers, biologists, sport fishers and more as they embark on a new course of cooperation and defense of the seas that sustain us. You'll begin to understand the key principles of ecosystem-based management in coastal and marine spatial planning, the cornerstones of the National Ocean Policy, and the focus of this year's Living On The Edge.
